

## TRUMP Report Card

by Constance Hanna [conniehanna131@gmail.com](mailto:conniehanna131@gmail.com)

**GET TO WORK!** That's the message folks. There are more of us than there are of them. The thieves are trying to paint a very different picture right now, and they are failing miserably once again. They think another impeachment show trial will separate us from President Trump. They want us to hate him as much as they do, but it is just a colossal waste of time. It is actually making the Democrats a laughing stock because it has now become an obsession with the very people in that party who are supposed to be their leaders. One blogger described it like this, **"Imagine being a president so popular with the people that they have to ban you from the internet to stop citizens from communicating with you, have news organizations do everything they can to destroy your legacy, and impeach you a 2nd time to make sure you don't run again."** That blogger captured the truth of it. The left knows that if President Trump runs again, he will win. Again. For a THIRD time. Their madness is brought on by the fact that they don't know where he is, with whom he is speaking, or what he is doing. When he was in the White House, they knew (or thought they knew) the answer to each of those questions. Well, they fixed that, didn't they? But NOW he is off the leash. They got everything they thought they wanted, but lost any semblance of control over the outsider. The disrupter. The winner. Whatever happened to "keep your enemies closer?" That was forgotten in the

blinding zeal to steal the Presidency.

What the left has failed to realize is that there are 80 million MAGA patriots off the leash as well. We don't control anything in Washington, and we can't change a single thing that requires a vote so, therefore, we are free agents. The opposition is beginning to realize how dangerous 80 million free-thinking, strong willed innovators really are to their careers. They're scared, but a wall around their little fiefdom will not stop us. Never forget that the purge will include many, many Republican pretenders. There are only a handful of patriots in the House and Senate that are worth our vote. Compile a list of the people you support and donate to them. Pay close attention to those on your list because every day someone else outs themselves as anti-Trump because they feel safe doing so now that he isn't in office. **Ted Cruz** did just that this last week, and **Liz Cheney** is still in a leadership position because weak Republicans were browbeaten by the weakest of them all, their leader, **Kevin McCarthy** into voting against her constituents in Wyoming who wanted her removed. We vote them into office to represent us, but once they arrive in D.C., we are forgotten. **Every Representative who voted to retain Liz Cheney disrespected their own constituents, so NEVER give a penny to the RNC or any national party structure.**

**When their piggy bank is empty then, and only then, they will begin to realize the mistake they made in ignoring us.**

Give your donations directly to the candidate of your choice. While the Republican Party Platform is much more in line with our thinking than is that of the Democrats, we have been ignored by both major parties long enough, and it's time for them to get a dose of their own medicine. Remember this, if we work hard enough and smart enough we can take our country back. We **MUST** take our country back! Given the current circumstances, while I don't suggest that you give money to the Republican Party, working through the local party is an excellent tool. Contact your County GOP headquarters and volunteer. Help is needed this year for municipal elections and the following year for congressional elections. Ask when and where the next County meeting will be held, and then go to that meeting. These meetings are where you will learn what is being planned within the party to effect change, how your Representative has voted on recent bills, how to contact your Representative and Senators concerning current issues (Impeachment), and how you can help on the local, state, and national scene. You will meet leaders and hear what is being planned concerning the upcoming elections and where and when your County, District, and State Conventions are being held. Do you know where your local precinct meets? That's where everything starts, and if you attend your precinct's annual precinct meeting, you may become a delegate and have voting power at any of these conventions you choose to attend. All it requires is a little time, and isn't our country worth it? Imagine the sacrifice our founders made, and then imagine the more recent cost in time AND financial loss President Trump has paid willingly. **It's time for us to pony up before China takes over completely. A perfect poster child for the gang currently in charge is their clueless, "circle back," press secretary. It's embarrassing, but it's also dangerous, and we can't afford to sit at home and let it continue. Get off your couch and put feet to your beliefs. A good way to do**

**that is to rebuild the Republican Party from the ground up, and we need to start that process by working through the GOP to restore election integrity.**

President Trump is still our leader, and although he hasn't been vocal recently, we can believe that he is still actively making plans to reengage with us very soon. Just remember the damage his silence is doing to the criminals in a psychological way. They know he is making plans, but they lost any way of knowing what those plans are when he left the White House. However, we know his plans are being made with us in mind because of a tweet from him on January 8, 2021. It reads, **"The 75,000,000 great American Patriots who voted for me, AMERICA FIRST, and MAKE AMERICA GREAT AGAIN, will have a GIANT VOICE long into the future. They will not be disrespected or treated unfairly in any way, shape or form!!!"** He knows our power, and it's time for us to realize it and ACT. "The Best Is Yet To Come" IF WE DO OUR PART, too! (The President's and our current grades are "Incomplete," but I suspect both the President and We the People will turn in good performances!)

Mike Lindell ("My Pillow") has put together an amazing video called, "Absolute Proof" that is running all week on One America News ([oann.com](http://oann.com)). It's chock-a-block full of facts, evidence, and experts, and it shows that Donald Trump actually received roughly 80 million votes to Joe Biden's 68 million, and documents foreign intrusion into our election with the IP address of each invader, the IP address and location of each target, the method of intrusion (false credentials, broke firewall, etc.), whether votes were changed and how many went from whom to whom. There are thousands of pages of this documentation and it covers counties all across the USA. Over 66% of the successful invasions originated in China. China launched a cyber warfare attack on us during the November election, and China's choice is occupying our White House. Where is the DOJ, the FBI, the state legislatures, the courts including the US Supreme Court, the US Congress???

Doubt it? Watch Mike's video. Your doubt will dissolve.
