## Biden Report Card

as graded by Bernie Sanders

Brock Chisholm said, **“To achieve world government, it is necessary to remove from the minds of men their individualism, loyalty to family traditions, national patriotism, and religious dogmas.”** This seems to be the goal of the majority of members of our U.S. House of Representatives and most of the Senate. **Thankfully, because of the last four years with President Trump in charge, we have a renewed sense of patriotism, we know the importance of restoring family values, and many of us seem to be experiencing a spiritual reawakening as well.** This change has been referred to as **“The Great Awakening.”** We were beginning to believe that things would never be better until President Trump came along and put America First. Now, we know how much better things can be, and the crowd in D.C. that wants to take us back to the depressing days of the last few administrations is getting more pushback than they ever imagined. The fraudulent theft of our government is painful, but it will not succeed in making us forget the great highs of the last four years, and it will not last as long as they need in order to reestablish the foundation of global governance. Every law they pass is aimed at punishing us for the freedoms we refuse to relinquish. They're the ones behind the fence with the razor wire on top, so just exactly who are the prisoners in this scenario? Dwight D. Eisenhower said, “If you want total security, go to prison. There you're fed, clothed, given medical care, and so on. The only thing lacking...is freedom.” That tells us all we need to know. These

criminals have trapped themselves in their own web of lies and deceit. And, by the way, to perpetuate the fear of the boogie man virus, they are wearing masks on camera and on the floor of Congress per Queen Nancy's edict. (For having laid the foundation for our Great Awakening with its concurrent resurgence of patriotism, family values, and religious values, President Trump gets an "A+++.")

Our hope for 2022 is to regain the House of Representatives and keep the new crop of strong, conservative women such as **Lauren Boebert** who represents Colorado's 3rd Congressional District and the amazing **Marjorie Taylor Greene** who represents Georgia's 14th Congressional District. They are both outspoken conservative, courageous firebrands. **Congresswoman Boebert is a huge Second Amendment advocate.** Her clear statement on that subject left no doubt that she wasn't asking for permission. It was, **“Even though I now work in one of the most liberal cities in America, I refused to give up my rights, especially my Second Amendment rights. I will carry my firearm in D.C. and in Congress.”** Congressman Boebert carries a Glock and owns a gun themed restaurant in Rifle, Colorado. Representative Boebert has also introduced a bill called **the LOCAL Act.** It stands for Local Opportunities, Conservation, and American Lands Act. It aims to keep the Bureau of Land Management Headquarters in Grand Junction, Colorado. President Trump believed that the concentration of power in

Washington was a disservice to the American people and that the different agencies and bureaus should be located in the specific areas of the country that they are serving. That would serve two purposes. It would provide better access to the people who needed it, and it would also break up the lobbying access and the "buddy clubs" for which Washington is known. Needless to say, it was not a popular plan among the entrenched bureaucrats in D.C. However, "real jobs" are awaiting those who refuse to move.

**The go-along-to-get-along attitude is not why Marjorie Taylor Greene ran for Congress, and much to the chagrin of Queen Nancy, she is proving it.** She is a hands-on entrepreneur who founded a business, sold it, and is co-owner of a construction company with her husband. She will tell you that she did not go to Washington to sit in a corner and be quiet. When the majority and even some of her Republican colleagues realized she meant it, they were determined to either get rid of her or minimize her. First, they conspired to remove her from her assignments on the Budget Panel and the Education and Labor Committee. The excuse used was items she had posted on social media years before. Unbelievably, **this charge came from Florida Congresswoman, Debbie Wasserman Schultz, who is possibly, after Nancy Pelosi, the least qualified person to cast stones.** Kevin McCarthy, the weak and ineffective Minority Leader, did not mount a defense, and she was removed from her assignments. **That didn't stop her, so the next proposal was that she be expelled from Congress. That was short lived probably because some of them realized she wouldn't go quietly, and some of their own vulnerabilities would become headline news.** Her determination to shine a light on the deceptive practices of Congress is their latest headache. She has observed that **too many bills are passed with a voice vote (yea or nay) which means there is no record of how a member voted and the American people cannot determine how their Representative voted on a particular issue. Representative Greene's solution for this practice is**

Please join me as we look at the following report obtained from an "anonymous source." It describes how well Puppet Joe is doing at implementing the socialist/communist agenda. The grading report is said to have been done by Bernie Sanders.

"Comrades, we are moving at a rapid pace to transform America into the socialist/communist country I have always wanted. Comrade Biden is following orders and is well supported by comrade Pelosi and comrade Schumer. Donald Trump said at his last State of the Union address (comrade Pelosi tore up her copy right in front of the American people) that America would never be a socialist country. We will make him eat his words!! I have graded comrade Biden on several topics as follows...

**"Open Borders, A+.** Puppet Joe has not only stopped construction of the wall, but has removed all border controls set up by President Trump. He is bravely violating his oath to enforce America's laws.

**"War on Fossil Fuels, A+.** Puppet Joe canceled the Keystone Pipeline project, banned drilling on federal lands, and put thousands of people out of work. Gasoline

**to call for a roll call vote.** This will not only provide a record for We the People, but it will reveal which Congressmen were even present to cast a vote. The powerful people who thought they were in charge are now realizing that Marjorie Taylor Green refuses to be intimidated. She and Representative Boebert are the living examples of what we deserve and should expect from our Congressional Representatives. **Their courage as freshman representatives is remarkable.** And as Jack Maxey said on Steve Bannon's show, **“Courage is contagious.”** Let's hope that the courage of these two women becomes a wildfire. That's what we desperately need in every level of our government. (Congresswomen Lauren Boebert and Marjorie Taylor Green are earning their own "A+++ grades!")

President Trump will soon be back on social media on his own platform. Stay strong and continue to believe his promise to us that, "The Best Is Yet To Come."

prices have increased dramatically and will continue to do so.

**"Lying to the People, A+.** Puppet Joe signed a "China virus" bill that directs only 9% of the huge sums it spends to aid those who have been affected by the virus. He blames the border crisis on President Trump. He makes no effort to involve Republicans and unite the country.

**"Unconstitutional Spending of American's Tax Dollars, A+.** Puppet Joe has signed on to spending billions of dollars to bail out failing Democrat controlled states, to spending billions to reward private unions by rescuing their unfunded pension plans with taxpayers' money, and to implementing a 'reparations' program by using taxpayers' dollars to pay minority farmers 120% of any outstanding debt they have accumulated while giving zero to white farmers.

**"Federalizing Elections, A+.** Puppet Joe supports and intends to sign a bill that, if passed, will prohibit requiring photo ID's in order to vote, will mandate that mail-in ballots be sent to all registered voters whether they request one or not, will prohibit states from preventing ballot harvesting, and will move the age at which one can begin to vote down to age 16. This will result in a one party system (guess which one), and I applaud it.

**"Ignoring the Second Amendment, A+.** Puppet Joe supports and intends to sign a bill that, if passed, will ban a number of firearms such as AR 15s and will subject manufacturers of firearms to lawsuits that stem from the illegal use of their products. The probable outcome of this bill is that all manufacturing of firearms will cease, and the manufacture of ammunition will probably cease as well. What a clever way to completely do away with the Second Amendment with a maneuver which makes it plausibly deniable.

**"Illegal Aliens, A+.** Puppet Joe has made the USA an absolute magnet for illegal aliens by making them eligible for free healthcare and for the China virus relief checks of \$1,400 each. This is of course more than citizens receive because citizens do not receive free health care (YET).

"Yours for Socialism/Communism, Comrade Bernie Sanders."

Is anyone having voter's remorse yet? Is anyone having election fraud regret? If you voted for Joe or committed fraud, you will eventually suffer, too. God help our country!
