

## TRUMP Report Card

by Constance Hanna conniehanna131@gmail.com

**The election audit in Arizona is the current battleground in the news.** The death throes of the criminal cheaters is evident in their non-stop efforts to stop the process. It appeared to be over on Friday when the opposition failed to post the million dollar bond that the judge required for them to get a pause. However, on Sunday evening the judge presiding in the case said a lawyer who is working for the lead auditor had worked as an extern for his office within the last five years, so he was compelled to recuse himself. That gives the opposition another chance to judge shop. They will not stop trying to interrupt the procedure because they know that if completed, this audit will expose the fraud and corruption that took place on November 3rd of 2020. President Trump issued a statement saying the Republican Party is demanding that **Governor Ducey** of Arizona provide security for the brave patriots that are doing the audit. **Antifa** and **Black Lives Matter** are already setting up shop around the area where they are working, but their tactics won't work like they did in the George Floyd trial. The conclusions of the audit will not be subjective. The results of the audit cannot be labeled as a racial issue because not only is it totally transparent, but the count is being done by members of both parties as witnesses. The nation and in fact the world can watch the proceedings on livestream. They may object to the outcome, but the TRUTH is not "mean," it's simply the

TRUTH. The Deep State Army is there as an intimidation tactic at this point, but Governor Ducey should be planning for the violence that is sure to happen when the results are announced. **Anyone who wants to watch the count live may do so by going to [azaudit.org](http://azaudit.org)** which proves the transparency cannot be disputed. On Monday, in his Save America PAC statement, **President Trump said, "Governor Doug Ducey of Arizona, one of the worst Governors in America, and the second worst Republican Governor in America, is refusing to provide security for the American Patriots who are hand counting the Rigged 2020 Arizona Election Ballot."** Isn't it great to hear this bold stance again from our President? This is one of the things we have been missing. He is helping us get out ahead of what we are facing and giving us the courage to stand strong. ("A+," Mr. President.)

A quote from Bannon's War Room explains the nature and character of the faction that we are fighting, **"It's not 'liberal' to steal elections, burn down cities, pack the Supreme Court, and put your political opponents in solitary confinement. It's Marxist; it's evil."**

**Natalie Winters published an article on the National Pulse website that she called "Named and Shamed" in which she named the reporters and editors that have accepted junkets from the Chinese**

**Communist Party (CCP) and then published favorable coverage.** ("A+," Ms. Winters.) We knew the press was biased, but this goes beyond bias. This means that the named reporters and editors are OWNED by the CCP. The word is that sunlight is the best disinfectant, and this exposure is what it takes if we ever expect to clean up the swamp. **Now, this has come from Sundance, "First they used the IRS. Then they used FBI contractors w/access to the NSA database. Now the Obama team is using the USPS to run a 'covert operations program' that monitors Americans' social media posts."** ("A+," Sundance.) So it continues under another agency, but once again they are being exposed. Also, **the never-to-be-forgotten mask Nazi, Tony Fauci, is also on the hot seat. Jim Jordan hammered him during hearings in the House of Representatives.**

Representative Jordan confronted Fauci on his constant flip flopping on mask vs. no mask vs. double or triple mask, AND get the vaccine, but you can still get the virus, so you still have to wear a mask and social distance. His go-to line is that at some point in the future we will be "allowed" to remove our masks, but at what point??? And just what does he mean when he chooses to use the word, "allowed?" Since when do we need 3 permission? Don't we have the freedom to decide that for ourselves? **Representative Jordan asked him, "But at what point, Dr. Fauci, do the American people get their Liberty back?"** ("A+," Representative Jordan.) **Fauci answered angrily, "This is not about Liberty."** ("F-," Fauci.) Obviously, Americans' liberty and happiness isn't important to Fauci, but sadly there are a great number of people who are operating from a position based on fear. **Our young people are being terrorized, and "Fauci the Fraud" is largely responsible for that.** However, although journalistic frauds still outnumber "the good guys," journalistic integrity is still alive and well in a new crop of young people who are making their voices heard on many websites including **"the national pulse.com"** and **"revolver.news."** These young people are spotlighted on **Bannon's War Room** regularly and their

### CCTA's "Convention of States" Debate at Stanly Hall Ballroom on 4-20-21

Representative Keith Kidwell and former Representative Michael Speciale took the "against" position. Senator Norman Sanderson and Representative Steve Tyson took the "for" position. Patti Mason served as the debate moderator. Alan Harrop, PhD, filled in. Audience votes were taken before and after the debate. The "after" vote showed 3 more "against" and 1 more "undecided" vote. Mark Meckler (pro COS activist) and some of his associates from the Raleigh area attended and participated in the lively audience discussion.

## CRT = Child Abuse?

by Alan Harrop, PhD  
harropcrew1@gmail.com

Public schools are supposed to be committed to not only educating our children, but to ensuring that no harm is done. The introduction of Critical Race Theory (see prior article in last week's *County Compass*) violates this commitment and will inflict irreparable harm. How? Let's look.

Critical Race Theory (CRT) and its offshoot, The 1619 Project, teach that America is a hopelessly flawed country

investigative journalism is top notch. ("A+," Patriots.)

**Mike Lindell is also in the fight to expose the election fraud, and just like our President Trump, he will never give up.** ("A+," Mr. Lindell.) We have so many warriors fighting on our behalf, and we must NOT forget it when the opposition grabs the headlines. Every time we read or hear something negative and bad, we must figure out how to be an influence in the other direction in our own community. The election audit is going forward in Arizona, and when that domino falls, and it will, then other states will follow. **President Trump is calling out the criminals every day, and he's also giving encouragement and support for the Representatives and citizen fighters on our team.** (Another "A+," Mr. President.)

Just look at how much progress we have made since last November. It's slow, but steady, and believe it, "The Best Is Yet To Come."

which is systematically racist and must be dismantled. Capitalism must be replaced by socialism as espoused by Karl Marx. If you are white, you are inherently racist and can never escape that fact. Minorities, especially blacks, can never receive success due to their achievement because of the inherent racism of whites. As usual with the left, the facts don't matter and are ignored. Among the things ignored are the many successful black business owners, black professionals, and the recent election of a black President of the United States. The truth is America has made great strides in ensuring equal opportunity for all regardless of skin color as advocated by Dr. Martin Luther King.

Making children see everything through the lens of supposed racism will impact them in predictable ways. White children who start school without racial prejudice will be labeled as inherently racist and to blame for all of the real or alleged bad things that have happened to minorities since the founding of our country. The fact that these children never participated in slavery, Jim Crow laws, or segregation is irrelevant. They are guilty anyway because they are white. The black children will be taught that no matter how hard they study and work, they will always be held back because of the inherent racism of whites. The result will be that children who enter school with no racial prejudice will be taught to distrust members of other races. That's the exact opposite of what Dr. King (See "CRT Harms," p. )

advocated and Americans have been striving with some success to achieve.

If CRT is taught, what will the psychological impact be on children? Black children will be discouraged from striving to be the best that they can be. Why try when you will be prevented from achieving success in spite of your efforts? This is called "learned helplessness," and it is very destructive to a person's character and wellbeing. Instead of motivating children to study hard and achieve good grades, teaching CRT will cause the opposite to occur. When they fail to achieve, it will be said to be the result of white racism when the real cause will have been the negative lessons drilled into their unsuspecting minds by the very people who are supposed to teach and protect them. As for white children, they will learn that they are inherently bad (i.e., racist) and cannot change that fact no matter what they do. As a result, white children will either feel guilty for something they did not do, or experience the sort of backlash that causes them to think things like, "I might as well be racist since I'll always be seen as racist anyway."

No rational person can believe that this will be good for our children or for race relations in our country. I call it child abuse. It is another terrible example of the left trying to divide this country and bring it down. It must be stopped. There is not room for compromise. Contact your Board of Education, local educators, your representatives in the General Assembly, and anyone who will listen and let them know you do not want Critical Race Theory or The 1619 Project taught in our schools. Our children's welfare and the future of our country hang in the balance.
